Track coverage

Enterprise Systems and Knowledge Management solutions when introduced into an organization require organizational and often cultural change. To be effective these solutions must be managed, tailored, deployed and used in ways that enhance business processes and practices and lead to improvements in innovation, and organizational performance. Building on existing work in knowledge management (KM) and enterprise systems (ES) this track promotes an interdisciplinary approach that examines the technical, managerial, behavioral, and social issues that arise in organizations in relation to the design, deployment, use and impact of ES and KM systems.

Recommended topics

Topics of interest may include, but are not limited to, the following:

- Knowledge creation and sharing in organizations
- KM and organizational learning
- ES in tertiary education
- KM and ES for organizational transformation
- Managerial, social and behavioral issues in KM and ES
- KM and ES governance, strategy and performance
- Development, use, diffusion and impact of KM and ES
- Inter-organizational impacts of ES
- Emerging and future trends in KM and ES
- KM and ES with social media
- Integrating KM and ES
- ES and business process management
- ES and mobile enterprise applications
- New ES architectures

– Managing the full ES lifecycle

– Knowledge creation and sharing in organizations

Submission Types and Guidelines

Full length submissions

Submissions must be no more than 12 pages, including references, appendices and title page. All submissions must follow the submission template specifications. Submissions must be original and previously unpublished, conceptual or empirical research manuscripts. Papers that are highly rated by the reviewers will be considered for publications in selected journals. The paper that best represents, in terms of quality and suitability, the theme and ideals of the conference will be awarded the "Best Paper Award" during the conference.

Research-in-progress submissions

Submissions must be no more than 7 pages. All research-in-progress submissions will be published in the proceedings as short papers.

Teaching cases

We welcome submissions of teaching cases. The cases should be based on real situations and targeted at specific learning objectives. Cases should be no more than 12 pages and must be accompanied by instructor teaching notes (not included in the 12 pages). The teaching notes will not be published.

Workshop, panel and tutorial submissions

Submissions must be no more than 3 pages. Proposals should include the objectives, topics to be covered and the full details of all presenters. Method of presentation is at the submitter's discretion; however, the submitter has the responsibility for providing his/her own panel members. All accepted proposals will appear in the conference proceedings.

Important announcements

- The number of submissions by an author (including joint authorship) is strictly limited to a maximum of two.
- Authors of accepted papers (at least one person per submission) and all panel members and tutorial presenters MUST register AND attend the conference.
- Submissions of ALL TYPES must be received by the above deadlines.
- While the primary language of the conferences is English, papers in French will also be accepted. The ICT in Latin America and the Caribbean, and the ICT initiatives in the African context tracks will accept papers in French, Portuguese and Spanish, as well as English.
- Accepted papers will be published in the conference proceedings in their entirety upon payment of registration fees. Papers accepted and presented at the conference will also be placed in the AIS e-Library. Papers not presented at the conference, for any reason, will not be included in the AIS e-Library.
